engine 2	total hours	7222	total cycles	4653 JSSI Premium
apu	Honeywell GTCP36-150	total time	3024	MSP

Interior/Exterior

This spacious and highly functional 9-passenger interior flows from the highly equipped forward galley, through an optional pocket-door separating the galley from the forward cabin, leading to the executive 4-place club arrangement. Proceeding aft leads you into the flexible 5-passenger conference grouping, composed of the two facing executive chairs, across the aisle from the berthable 3-place divan. Traveling further aft finds you in the opulence of the private, enclosed lavatory. Material selections include warm beige leather seating underneath a Milkweed ultraleather headliner, sidewalls and lower-sides. The woodwork is a deep Eucalyptus veneer, accented with satin-nickel plating throughout.

Connectivity is provided by the ATG-5000 Wi-Fi, and video displays are located both forward and aft, featuring the Airshow-4000 with Moving Map.

The exterior is completed in a brilliant Matterhorn White upper over an Aristo Blue lower, accented with highlights of Gamma Gray and Dusk Blue.

The interior and exterior completions were executed in 2012 by the artists at Gulfstream, and remain in good condition.
